**INTRODUCING MY NEW BOOK, “INSPIRATIONAL TRUE STORIES OF ANIMALS AND ANGELS IN MY LIFE”** by Gloria Dodd DVM

It is a book containing numerous delightful James Heriott-like stories of animal cases she has treated and their owners she has known, as well as valuable insight as to what really makes an animal sick and how to treat the animal with biological medicine she learned from naturopathic medical doctors in Germany, England, South America and America.

These were modalities she researched and found worked in animals as well as people! Last but not least, she recounts her Divine experiences with her Guardian Angel, Michael- David, in her times of need. Regular price \$22.95 **Discount special= \$17.21** web code (ITSAA)

**Aerobic 07 - 70 ml. squeeze bottle** of nacent oral oxygen. It provides increased oxygenation to the cellular environment that kills off viruses, bacteria, fungi and cancer cells.
